

## IPR Awareness Program under SSIP 2.0 Organized for B.Tech Students

The SSIP 2.0 Cell at Adani University organized an awareness program on Intellectual Property Rights (IPR) for B.Tech students. The program aimed to educate students about the various types of intellectual property, including patents, copyrights, and trademarks, as well as the process for filing patents. Mr. Amit Patel from Patectual IP Law Services encouraged students to develop innovative ideas and protect them under the relevant laws. Additionally, Dr. Raj Jadav, Coordinator of SSIP 2.0 IPR, informed students about the IPR support available through SSIP 2.0.
