

## GOVERNMENT ENGINEERING COLLEGE, BHUJ

### Report on Ideas for Innovation in Energy Sector

For the celebration of vikas saptah, a session on “**Ideas for Innovation in Energy Sector**” was conducted for the students of Government Engineering College, Bhuj on 11/10/2024. Total 55 students took part in this session. In this session, Dr. William J. Koshy made the students aware about the innovative ideas of the energy sector, advancements in energy storage and AI-driven optimization to the commercialization of new nuclear technologies and carbon capture systems. Following are the photograph of the students present during the session.
