INFORMATION

The formulation challenge competition is designed to identify relevant challenges and foster the creation of innovative solutions in the fields of Pharmacy, Healthcare, Science, Foodtech, Biotech, Agritech, and Cosmetics. It offers a platform for students from related disciplines to cultivate e skills and drive industry advancements."

The Formulation Challenge Competition was held on 11th October 2024 at Gyanmanjari Pharmacy College. This event aimed to provide an engaging platform for B.Pharm and B.Sc. students to showcase their skills in pharmaceutical formulation, Healthcare, Science, Foodtech, Biotech, Agritech, and Cosmetics and innovation. Participants had the opportunity to work on real-world problems, fostering creativity and collaboration among students from different disciplines.

In these events students presented their projects of formulation and explained problem statement, solution description, impact potential, business model, market analysis, current status and progress and future plans about their projects.

OBJECTIVES

1. **Enhance Practical Skills:** Provide students with hands-on experience in formulation techniques and problem-solving within a competitive framework.
2. **Encourage Research and Innovation:** Stimulate interest in research by challenging students to explore new formulations and technologies in the pharmaceutical and science field.
3. **Develop Critical Thinking:** Encourage students to critically evaluate their formulation approaches and adapt to feedback from judges and peers.
4. **Networking Opportunities:** Create networking opportunities with industry professionals, providing insights into career paths and industry expectations.
5. **Recognize and Reward Talent:** Provide a platform to recognize outstanding talent and innovative ideas in formulation science.
6. **Prepare for Future Careers:** Equip students with skills and experiences that enhance their employability in the pharmaceutical and life sciences industries.
