REPORT ON

“Celebration of National Science Day

On 28th February”

Brief Outline of the Session

On the occasion of National Science Day 2023, Institution's Innovation Council (IIC) commemorates 28th February 2023 in the loving memory of creative mind par excellence Sir Chandrasekhara Venkata Raman, famously known as Sir C V Raman. The day is known for one of the greatest Innovation and scientific achievements of India, Raman Effect, discovered by Sir CV Raman, who won the Nobel Prize in 1930. The day is observed to spread awareness about the importance of science and its contributions to society. The celebration of National Science Day in institute is a crucial event that helps in promoting scientific temper among students and the importance of promoting scientific knowledge among students. Celebrating National Science Day in schools is an excellent way to encourage students to explore scientific concepts and promote scientific temper.

One of the most popular events organized by institute on **National Science Day** is the science exhibition. Students can display their innovative scientific projects and models to showcase their scientific skills and knowledge. On this occasion; we organize an Innovative model Project Making competition. About 45 students from different branches participated in exhibition.

The main objectives of this activity are that the student will be able to:

1. To widely spread a message about the significance of scientific applications in the daily life of the people,
2. To display all the activities, efforts and achievements in the field of science for welfare of human being,
3. To discuss all the issues and implement new technologies for the development of the science,
4. To give an opportunity to the scientific minded citizens in the country,
5. To encourage the people as well as popularize the Science and Technology.

The benefits of this event are that the student will be able to:

1. Understand the importance Science and Technology in the program of engineering courses.
2. Analyze a problem from its roots and try out various innovative ideas.
3. Improve their thinking capability and explore various ways of solving a problem by inspecting it in various perspectives.

GLIMSES OF THE SESSION
