

GOVERNMENT ENGINEERING COLLEGE, VALSAD

Applied Science & Humanities Department

A session on

Innovation for Environment

Under

SSIP, IIC and ECO Club, GEC Valsad

November 26, 2024

Speaker:

Dr. B R Sudani

Assistant Professor,

Chemical Engineering Department

GEC Valsad

Organising Members:

Dr. R C Malan, Prof V R Visavaliya

SSIP Coordinator:

Dr. K L Mokariya

A session on "Innovation for Environment" at Government Engineering College Valsad, under the auspices of IIC (GoI), SSIP (GoG), and ECO CLUB-GEC Valsad is organised by Applied Science & Humanities Department at 11.00am on November 26, 2024. The session was delivered by Prof B R Sudani, Assistant Professor, chemical engineering department, GEC Valsad. Total 215 students were present during the entire session.

During the session, we explored ground-breaking ideas and technologies aimed at addressing environmental challenges. It was inspiring to see the enthusiasm and creativity of the students as we discussed sustainable solutions and innovative approaches to preserving our planet.

Key Highlights:

- Introduction to sustainable innovations and their impact on the environment.
- Interactive discussions on eco-friendly technologies and practices.
- Engaging with future engineers and eco-enthusiasts passionate about making a difference.
- Collaborative brainstorming sessions to foster innovative thinking.

Demonstration for waste management was given by the team Mr. Niraj Desai, Vibha Desai, Kevin Patel, Nehali Patel and Khushbu Vaidya from the NGO Innovate4India.

Together, we can drive positive change and build a more sustainable future.
