

## ArthoMove

**Date:** 11/10/2024

**Time:** 09:00 AM to 02:00 PM

**Venue:** RK Physiotherapy and Rehabilitation Centre Research Centre

**Targeted Audience & Participants:** 165+ Patients

### **Brief Description of the Event:**

A free physiotherapy camp was organized at the RK Physiotherapy and Rehabilitation Research Centre (RKPRRC) The camp was conducted in collaboration with Shalby Multispeciality Hospital, a reputed healthcare institution. The event featured the expertise of Dr. Ravi Dholariya, a renowned orthopedic surgeon, who provided expert consultations to the attendees. The product that the physio department made has been used with the collaboration. Event was to take the innovative product for the use of the patients betterment. To educate the public about osteoarthritis, its symptoms, and preventive measures by using this products. To provide personalized exercise recommendations tailored to individual needs.

The camp commenced at 9:00 AM with a welcoming session, where attendees were introduced to the significance of World Arthritis Day and the camp's objectives. Free consultations by Dr. Ravi Dholariya, addressing orthopedic concerns. A total of 165 patients benefitted from the camp. Attendees received comprehensive explanations of their conditions and tailored advice for effective self-management.

### **Objective of Event:**

To commemorate World Arthritis Day, a free physiotherapy camp was organized at the RK Physiotherapy and Rehabilitation Research Centre (RKPRRC) on 11th October 2024. The event aimed to raise awareness about osteoarthritis and provide free consultations and guidance to the community, emphasizing early detection, prevention, and management of arthritis-related issues by the innovative products the center made for the help of the patients.

### **Outcome of Event:**

The free physiotherapy camp successfully achieved its objectives of spreading awareness about the innovative product made for osteoarthritis and providing valuable healthcare

services to the community. The event underscored the importance of early detection and proactive management in preventing the progression of arthritis-related conditions. The collaboration with Shalby Multispeciality Hospital enhanced the event’s credibility and reach.
