SUMMARY

On Monday 27 February, a workshop was organized on the topic "Design thinking, critical thinking, & innovation thinking" by Computer Engineering Department, PIET-DS. The workshop was aimed at helping participants learn about the different thinking approaches and how they can be applied to solve problems and drive innovation. The workshop started at 9.30 am and lasted for three hours.

The objectives of the workshop were to:

1. Introduce participants to the concepts of design thinking, critical thinking, and innovation thinking.

2. Help participants understand how these thinking approaches can be used to solve complex problems and drive innovation.

3. Provide participants with hands-on experience of using these thinking approaches through interactive activities and exercises.

4. Encourage participants to apply these thinking approaches in their work and personal lives.

5. Student have prepared Ideation canvas for their Idea.
