In this event 79 teams with 264 participant were registered from the 14 different institutes of the Gujarat state. Industry based 20 different problem statements like SOS App, E- Waste Management System, Organ sharing App, Property Tax Collection system for smart cities, etc. were given to the students. The problems ranged from health care to education and were chosen to challenge the participants and push them to think creatively. The teams were given 8 hours to come up with a solution and present it to a panel of judges.

The evaluation committee members were made up of professionals from the technology industry and academic institutes who evaluated the projects based on their creativity, functionality, potential impact, etc. Based on the predefined criteria the teams were continuously examined by and based on their performance the winners were selected.

In the valedictory session and prize distribution ceremony the Provost of The Charutar Vidyamandal University (CVMU), Dr. Himanshu Soni Sir was

present as the chief guest of the function and appreciated all the participants for their efforts. The first prize of Rs. 15000/- was awarded to the Vinit Kotadiya and his team from Tapi Diploma Engineering College, Surat. The Second prize of Rs. 10000/- was awarded to the Kalpan Desai from B & B Institute of Technology, Vallabh Vidyanagar and The third prize of Rs. 7500/- was awarded to the Raj Dilipbhai Markana and his team from Darshan University. Along with this, 13 different prizes were awarded to the different teams for their exceptional works during the events.

The entire event was completed with the support of ISTE, Gujarat Section, The Institute of Engineers (VVLC), SSIP Cell, BBIT and the Team of B & B Institute of Technology Vallabh Vidyanagar.
