

Two Days Workshop on Introduction to Robotics

Date : 24/01/2025

As part of its ongoing 11th series of activities, the Electrical Engineering Department of Adani University hosted a two-day workshop and competition on "Introduction to Robotics." The workshop covered robotics fundamentals and competition-based learning, combining academic insights with practical training sessions. This program aimed to develop a new generation of embedded systems engineers with real-world problem-solving skills.
