

CHARUSAT UNIVERSITY OF SCIENCE AND
TECHNOLOGY (CHARUSAT), CHANGA – 388 421

Event Report

Brochure

The brochure features three logos at the top: CHARUSAT (Charotar University of Science and Technology, Accredited with Grade A+ by NAAC, Govt. of India), SSIP, and CSIC (Charusat Startup & Innovation Centre). The main title is "Awareness Program 2025". Below the title, a white box contains the text "CHARUSAT STARTUP AND INNOVATION CENTRE (CSIC) and SSIP". To the right, a blue box titled "Participant" lists the following details: Institute : DEPSTAR, CMPICA, CSPIT; Date: 3rd February 2025; Time: 02: 00 PM Onwards. An illustration of a presenter at a whiteboard with an audience is positioned below the white box. At the bottom, the coordinators are listed as "Coordinate By: Dr. Jaimin Undavia , Dr. Kamini Solanki".

What is Startup?

- Problem Identification**
Recognizing a gap or issue that needs solving
- Solution**
Developing a product or service that addresses the identified problem
- Value Proposition**
Articulating what makes the solution unique and why it will attract customers
- Market**
Identifying the target audience who will benefit from and pay for the solution
- Scalability**
Ensuring the idea can grow and serve a larger market over time

- A startup idea is a concept for a new business venture that aims to address a specific problem or need in a novel way. It typically involves creating a product, service, or technology that offers unique value to customers.

Janaki Joshi

Journey from Idea to Startup

Idea

IDEA stands for "Initial Concept or Idea." It refers to the first spark of creativity or innovation that can potentially solve a problem or fulfill a need.

Feasibility & Validation (PoC)

- A PoC is a small-scale, preliminary version of a product, process, or solution to demonstrate its feasibility and validate the core concept.
- PoC helps in understanding the technical and practical challenges of implementing the idea.

Prototype Development

- A Prototype is a tangible representation of the proposed product or solution.
- It allows for user testing and feedback, helping to refine the product's design and user experience.
- Prototypes can be physical (hardware) or digital (software) depending on the nature of the idea.

Startup

- A Prototype is a tangible representation of the proposed product or solution.
- It allows for user testing and feedback, helping to refine the product's design and user experience.
- Prototypes can be physical (hardware) or digital (software) depending on the nature of the idea.

Patent

- A Prototype is a tangible representation of the proposed product or solution.
- It allows for user testing and feedback, helping to refine the product's design and user experience.
- Prototypes can be physical (hardware) or digital (software) depending on the nature of the idea.
