Summary

A session under the event of Entrepreneurship Sensitization was organized by Entrepreneurship Development Centre on 21th september 2022 for School of Pharmacy which was conducted by Mr. Hutesh Baviskar. The main objective of this session is to create awareness about the opportunities lies in the field of Entrepreneurship among the students of Pharmacy and indulge them towards Entrepreneurship and Innovation. In this session the students are made aware of various facets of entrepreneurship as an alternative career option. He emphasis on the Importance of Innovation and Entrepreneurship as well as give insight on how entrepreneurship can be an alternative option of their career. He also shared success story of PU startups as well as stories of medical student who have recently received grants for their Startup Ideas.

The session was more focused on innovation and how students can trigger the correct problem for building startup. In the session students were also make aware about the sources from where they can receive grants and how Entrepreneurship Development Centre can help them in connecting with those sources. The student was also given insight about the flagship events which are organized by EDC to support their Idea as well as the other event organized by EDC on regular basis. Apart from this he also shared the achievement accomplished by EDC in span of year of it's working. He also focuses on how students from pharmacy background can convert their research projects into startups. At the end of the session, he solves the queries of the student and shared the details EDC coordinator and Telegram channel link was shared with the students for their reference.
