

GYANOTSAV-2025

Report of CVMUISC and AICTE IDEA LAB Zone

Gyanotsav-2025, a prestigious event, was organized by CVM University during 31st January to 4th February 2025 at Shastri Maidan, Vallabh Vidyanagar. This event was aimed at showcasing cutting-edge innovations and fostering creativity and entrepreneurship within the academic and startup ecosystem. The event featured a variety of innovative projects from students, faculty, startups, and AICTE IDEALAB under the CVM University Innovation and Startup Centre (CVMUISC) zone.

The AICTE IDEA LAB team including 3 faculty members, 2 lab assistants and 7 students managed the following tasks:

The AICTE IDEA LAB team showcased the major equipments (3D Printer, Mug & T-shirt Printing Machine, etc.) and models developed using the facilities of IDEA LAB (CO₂ Laser Cutter, Wood Router, 3D Printers, etc.). In this way, the IDEA LAB team spread awareness and motivated students to apply the basics of science, technology, engineering, and math (STEM) to their own ideas to improve their hands-on experience, learn by doing, and even product visualization.

The IDEA LAB team also explained the involvement of IDEA Lab with various types of technical activities such as skill development activities, internship programmes, incubation activities, product and prototype development, sample production, conduct of workshops/conferences for teachers and students of colleges and high schools, industry persons, etc.

In Gyanotsav 2025, Students have exhibited their projects under CVMU ISC. These projects are funded by CVMU SSIP cell or SSIP cell of individual colleges. More than 35 teams have participated from various institute of CVM University and show case their work. The projects are on various themes like IoT, Home Automation, Traffic Surveillance, Industrial Automation as well as Agriculture.

These innovative projects have captured the attention of many viewers includes students of various schools, citizens of Anand district as well as some Industrialist. Many industrialists as well as faculty members motivated the students to expand the projects and convert in products. They have also shown their interest to purchase the product at latter stage. School as well as college students who have visited Gyanotsav 2025 are motivated with the work and inspire to participate in coming Gyanotsav with their projects. Everyone has learned many things and appreciate the students work.

This Gyanotsav-2025 and the projects presented in it has created awareness among the visitors and they learn how to solve the problems of the society by technology. The participants have got new insight in their work and got many constructive suggestions to expand their work. They also got many appreciations and new energy to explore their work among similar or may be wider audience in future.

All over Gyanotsav 2025 has open many new directions, give new vision to creativity and open the many dimensions for expansion and grow. Participants have given very good feedback to this event, and they are full of enthusiasm at the end of event. They are filled with more energy and knowledge which they can carry forward.

Glimpse of the CVMUISC and AICTE IDEA Lab Team:
