

**NAME OF THE SESSION:** GLIC-LKS Certificate Course - Opening Ceremony

**DATE AND DAY:** March 1, 2025; Saturday

**VENUE:** Moot Court Hall (Guru Bhavan), Gujarat National Law University

**GUEST(S) AND DESIGNATION:**

- Mrs. Vindhya (Keynote Speaker)
- Mrs. Naina Gupta
- Dr. Ritvik Sharma
- Dr. Nidhi Buch
- Dr. Viral Pandya
- Dr. Ambati Nageswara Rao
- Ms. Arati Patel

**CHAIR/KEY SPEAKER (For Sessions):**

- Mrs. Vindhya (Keynote Speaker)

**BRIEF:** The opening ceremony of the GLIC-LKS Certificate Course commenced at 10:07 AM, welcoming all dignitaries and participants. The session was anchored by Avadhi and Lakshya, who introduced the objectives of the certificate course and highlighted the contributions of the three institutions involved:

- **GLIC:** A Section 8 company supporting startups through funding and guidance.
- **GCIPR:** A center promoting academic discourse and training programs in intellectual property rights (IPR).
- **Knowledge Partner - Lakshmi Kumaran and Sridharan (LKS):** A renowned Indian law firm specializing in IPR.

**KEY QUOTES:**

- **Dr. Viral Pandya:** "Ideas can lead you anywhere, even to the judiciary. Given the right space and support, startups can flourish."
- **Dr. Nidhi Buch:** "IPR is not just a right on paper; it involves a process. Protecting innovation is as important as creating it."
- **Mrs. Vindhya:** "Many startups unknowingly infringe on patents. Understanding IPR is not rocket science but a necessity for success."

**Interactive Discussions:**

- Dr. Viral Pandya shared the history of GLIC's role in facilitating student-led startups and how funding opportunities are provided by the state government.
- Mrs. Vindhya explained how IPR helps startups safeguard their ideas, sharing insights on patent infringement and why it is necessary to deal with it.

**NAME OF THE SESSION:** GLIC-LKS Certificate Course - Class 4: Design

**DATE AND DAY:** March 1, 2025; Saturday

**VENUE:** Room No. 0.6 – Guru Bhavan

**GUEST(S) AND DESIGNATION:**

- Speaker: (Name not specified in notes)

**CHAIR/KEY SPEAKER (For Sessions):**

- Speaker on Industrial Design and Intellectual Property Rights

**BRIEF:** The session on **Designs** under the GLIC-LKS Certificate Course commenced at 5:39 PM, focusing on industrial design and its significance in intellectual property rights (IPR). The speaker elaborated on how designs differ from patents, trademarks, and geographical indications (GI). While patents, trademarks, and GI fall under industrial IPR, copyright remains non-industrial.

**Additional Notes:**

- The session emphasized **Freedom to Operate (FTO)** searches and how law students should develop practical skills in handling design and patent databases.
- The **importance of distinguishing functional and aesthetic elements** in product design was reiterated.
- The class concluded with an **attendance check**, followed by an informal discussion about ongoing activities on campus.
- The session ended with a note of encouragement, urging students to explore **design law opportunities in startups and entrepreneurship**.

**NAME OF THE SESSION:** GLIC-LKS Certificate Course – Design Protection & Trademark Law

**DATE AND DAY:** March 2, 2025; Sunday

**VENUE:** Room: 0.6 – Guru Bhavan

**GUEST(S) AND DESIGNATION:**

- Speaker: (Name not specified in notes)

**CHAIR/KEY SPEAKER (For Sessions):**

- Speaker on Design Protection & Trademark Law

**BRIEF:** The session was divided into two parts:

1. **Design Protection & Application Process**
2. **Trademark Law & Enforcement**

### **Part 1: Design Protection**

The session began with a discussion on **protecting designs after launching a variety in the market**. The speaker explained that once a design is launched, the creator must apply for protection **within four years** from the date of market entry. Unlike **patents, which allow extended filing periods of up to 8 years**, designs require a more immediate approach due to their **fast-evolving nature**.

To prove market presence and secure protection, applicants must present:

- **Receipts of sales**
- **Revenue records**
- **Market presence evidence** (advertisements, consumer reach, etc.)

### **Part 2: Trademark Law & Enforcement**

The second part of the session focused on **trademark enforcement and legal procedures in case of infringement**. The speaker emphasized that **trademarks do not protect the product itself but the commercial transfer of rights** associated with it.
