A REPORT on

“National Start up day: Startup Awareness & SSIP 2.0”

Date: 16/01/2025 Venue: CH-002, Chemical Engineering Building Time: 10:45 am to 11:45 am

As a part of National start up day an event on “National Start up day: Startup Awareness & SSIP 2.0” under SSIP & IIC was held under the guidance of Prof. R K Kanzariya, Assistant Professor, Chemical Engineering Department. Total 21 students of semester VI & 04 faculty members have attended the program.

The role of technology, engineering, and innovation in the formation of successful start-ups was highlighted. The event aimed to inspire students & faculty to think creatively and explore entrepreneurial ventures in the field of chemical engineering.

Prof. Krunal S Ramanandi had discussed about SSIP 2.0 policies and how students can be benefited by SSIP funding and how they can become a successful Entrepreneur. Students of VI Semester were motivated and their queries about Startup, Innovation and path to become an entrepreneur was discussed. Proposal for availing grant for development of PoC/Prototype were invited.
