

Government Engineering College Valsad

Celebration of National Science Day 2025

27th and 28th Feb, 2025

Introduction: The National Science Day Celebration, organized jointly by Government Engineering College, Valsad, and District Science Centre, Dharampur, was held with great enthusiasm and a focus on promoting scientific knowledge and innovation. The event successfully brought together students and teachers from various schools to celebrate the spirit of science and its transformative impact on society.

Highlight of the Event: The cornerstone of the celebration was an enlightening lecture titled "**Quantum Physics: A Revolution**" delivered by **Dr. Rajesh C. Malan**, Head of the Applied Science and Humanities Department. Dr. Malan's lecture captivated the audience with his insights into the groundbreaking field of quantum physics, showcasing its profound implications for science and technology. The lecture was attended by a diverse audience of enthusiastic teachers and students, representing schools from across the region.

Competitions and Exhibitions: The event featured a variety of competitions and exhibitions designed to engage and inspire participants:

- **Competitions:**

- Quiz contests on scientific concepts and discoveries.
- Poster-making competitions focused on "Innovations in Science."
- Science model demonstrations where participants showcased their creative projects.

- **Exhibitions:**

- A display of innovative science projects by students.
- Interactive exhibits demonstrating key principles of physics, chemistry, and biology.
- Informational stalls highlighting the history and impact of quantum physics.

Impact: The celebration provided a platform for students to explore their curiosity about science, engage in creative activities, and deepen their understanding of advanced scientific concepts. It also fostered collaboration among educators and students, paving the way for future scientific endeavors.

Conclusion: The National Science Day Celebration was a resounding success, embodying the essence of scientific exploration and education. The joint effort by Government Engineering College, Valsad,

and District Science Centre, Dharampur has left a lasting impression on participants, inspiring a new generation of thinkers and innovators.
