

Report on NEP 2020 and SSIP 2.0

Speaker Dr Navin seth and Rjaya sabha MP R M modhvadiya

VC GTU.

Date of event: 10/10/2020

Attendee: 18 student and 7 faculty member from GP

The National Education Policy (NEP) 2020 is a comprehensive framework for the transformation of education in India. It aims to provide quality education to all, promote creativity and critical thinking, and prepare students for the challenges of the 21st century. The NEP 2020 also emphasizes the importance of entrepreneurship and innovation in education and encourages the development of a strong start-up culture among students.

The Student Startup Policy, which was launched by the Government of India in 2016, aims to create a supportive ecosystem for student entrepreneurs in India. The policy provides a range of support mechanisms, including incubation centers, funding, mentorship, and networking opportunities, to help students turn their ideas into successful businesses. The policy also aims to promote entrepreneurship as a viable career option for students, and to foster a culture of innovation and risk-taking in the country.

Both the NEP 2020 and the Student Startup Policy are important initiatives aimed at transforming education in India and promoting entrepreneurship and innovation among students. These policies recognize the importance of equipping students with the skills and mindset necessary to succeed in an increasingly competitive and rapidly changing world, and provide a strong foundation for the development of a vibrant and dynamic start-up ecosystem in India.
