Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

Brief about Event

R. N. Mehta College, Rajkot, in collaboration with the SUSEC, SPRIHA, Saurashtra University and IIC, Saurashtra University organized an insightful workshop titled “Entrepreneurship and Innovation as a Career Opportunity” on 10th September 2025. The workshop aimed to create awareness among students about emerging entrepreneurial trends, innovation processes, and the scope of startups as viable career paths.

The session was conducted by Mr. Parth Sejpal, IPR Chair Professor at SPRIHA, Saurashtra University. With his extensive experience in innovation management and intellectual property rights, he provided students with structured guidance on how ideas can be shaped into impactful entrepreneurial ventures. His presentation connected academic learning with real-world entrepreneurial ecosystems.

Throughout the workshop, Mr. Sejpal discussed the significance of innovation-driven thinking, problem-solving skills, and opportunity recognition. He highlighted how students can transform societal challenges into scalable business solutions through systematic ideation and prototype development. The participants were also introduced to different government initiatives such as SSIP and university-level incubation support systems.

The program received enthusiastic participation from students, who actively engaged in discussions related to startup planning, creativity, design thinking, and navigating early-stage entrepreneurship challenges. The workshop created an inspiring environment, motivating students to consider entrepreneurship not merely as a concept but as a promising career direction.

Overall, the event served as a practical and motivational platform where students learned the foundational concepts of innovation, entrepreneurial mindset, and the importance of industry-academia collaboration in shaping future-ready youth.

Key Points

During the session, below mentioned points were discussed:

- Startup awareness
- Innovation mindset
- Idea development
- Problem solving
- IPR importance
- Ecosystem support
- Student engagement

Outcome

The workshop successfully enhanced students’ understanding of entrepreneurship, innovation, and startup culture. Participants gained clarity on how innovative ideas can be shaped into market-ready solutions with the help of institutional support and proper guidance. The session inspired students to think creatively, identify real-world problems, and develop innovative concepts with entrepreneurial potential.

Overall, the event strengthened the confidence of learners and encouraged them to explore opportunities in the startup ecosystem, thereby fostering a culture of innovation and self-reliance among young minds.
