

A Report on
“Sustainable Energy Solutions and Green
Technology”
(4th March 2025, Tuesday)

Event Overview:

The seminar on “Sustainable Energy Solutions and Green Technology”, was organized by Switch Bikes and the Mechanical Engineering Department of Gandhinagar Institute of Technology on March 04,2025. The seminar highlighted the importance of sustainable energy and green technologies for a cleaner future. The collaboration between Switch Bikes and the university exemplified the integration of technology and sustainability, especially in transforming transportation through electric bikes.³

The event was a grand success under the enlightenment of President, Vice President, Vice Chancellor of the University and the participants.
