The PIET DS (Mechanical Dept), in collaboration with the **Parul Innovation and Entrepreneurship Research Centre (PIERC)**, organized a Session on the “Converting-Innovation-into-a-Startup-From-Idea-to-Impact” on 10/7/2025 for the students of Parul University. The session was taken by **Mr. Abrar Cinemawala, PIERC coordinator, Parul University.**

Objective:

- To encourage students to develop innovative ideas with entrepreneurial potential.
- To provide insights on the journey from idea generation to startup creation.
- To guide students on validation, business modeling, and impact-oriented innovation.
- To foster an entrepreneurial mindset among budding engineers.

Outcomes:

- Students understood the steps involved in converting an idea into a startup.
- They gained knowledge about business model development and market validation.
- The session enhanced their awareness of innovation-driven entrepreneurship.
- Students were motivated to explore startup opportunities and apply innovative thinking.

Benefits in terms of learning/Skill/Knowledge obtained:

- Enhanced understanding of the startup ecosystem and entrepreneurial process.
- Developed skills in idea validation, business planning, and market research.
- Gained insights into innovation management and product development.
- Improved problem-solving and critical thinking abilities related to startups.
- Acquired knowledge of strategies for creating impactful and sustainable ventures.

Conclusion

The session proved to be highly insightful and motivating for the students, providing them with practical knowledge on transforming innovative ideas into successful startups. It strengthened their entrepreneurial thinking and equipped them with essential skills in business modeling, idea validation, and innovation management. The initiative successfully fostered a spirit of creativity and startup culture among the participants.

Glimpses of activity

THANK YOU
