---

## 1. Introduction

The SSIP School Sensitization Program was conducted at **Shree Bala Hanuman Secondary & Higher Secondary School, Kutiyana** with the objective of creating awareness among students about **innovation, startup culture, design thinking, and problem-solving skills**. This initiative aims to inspire school students to think creatively and understand how innovative ideas can be transformed into impactful solutions for society.

---

## 2. Objectives of the Program

1. To introduce students to the concept of **innovation and entrepreneurship**.
  2. To create awareness about the **SSIP Scheme** and its benefits for young learners.
  3. To motivate students to **identify local problems** and develop creative solutions.
  4. To encourage students to participate in **future innovation-related activities and competitions**.
  5. To provide a platform for interaction with faculty members and mentors from SSIP Cell.
- 

## 3. Program Overview

The program session was conducted by the SSIP team from S.E.T. Campus, Junagadh. The key points covered during the session included:

- Introduction to **Startup Ecosystem**
- Concept of **Design Thinking**
- Steps for identifying and solving real-life problems
- Success stories of young innovators
- Opportunities provided under **SSIP**
- Guidance for idea submission and project development

Students actively interacted during Q&A and shared their own ideas and challenges faced in their surroundings.

## 4. Attendance

A total of **126 students** from various standards of Shree Bala Hanuman Secondary & Higher Secondary School participated in the program with great enthusiasm.

---

## 5. Outcomes of the Program

- Students gained **basic knowledge of innovation and entrepreneurship**.
  - Increased interest among students to participate in **SSIP activities** in the future.
  - Identification of initial problems and idea themes shared by students.
  - Strengthened collaboration between the school and the SSIP team for future programs.
- 

## 6. Feedback

The school administration and teaching staff appreciated the initiative and expressed interest in organizing more sessions in the future. Students responded positively and requested deeper workshops on project building.

---

## 7. Conclusion

The SSIP Sensitization Program at **Shree Bala Hanuman Secondary & Higher Secondary School, Kutiyana** was successful in achieving its objectives.

The participation of **126 students** reflects strong interest and potential for nurturing young innovators.

The SSIP Cell looks forward to conducting more such sessions and guiding students toward creative and innovative thinking.
