Name of Event	Celebration of Innovation Day		
Event Type (Extra-Curricular)	Start-up Pitch and Idea Exchange Competition		
Platform	Offline		
Place of event	A3-205, IAR		
Date of the event	4th November 2025	**Time**	02:00 PM- 03:30 PM
No. of Student/ faculty Participants for Expert talk	Students: 20 Faculty: 01	**Level of Activity**	University Level
No. of Participants	20 (Attendance sheet attached for reference in **Annexure - 'A'**)		
Name of the Coordinator	Mr. Pragnesh Trivedi , Teaching Assistant, IAR		
Name and details of the Expert	Mr. Pragnesh Trivedi , Teaching Assistant, IAR		
Contact details of Organizers	Pragnesh.trivedi@iar.ac.in 9714004121		
Sponsoring authority	IAR	**Sponsorship/ Budget amount:**	NIL-

Objective of the Event:

The objective of this event is to inspire students to think creatively, share new ideas, and develop solutions that can make everyday life better. It aims to give students a space where they can express their imagination, experiment with problem-solving, and learn how innovation can create real impact in the world.

Brief Overview of the Event:

Innovation Day is a dynamic and thoughtfully curated event designed to inspire students to think creatively, solve problems, and experience the real essence of innovation through hands-on engagement. The event brings together students from different departments to work in teams, explore new ideas, and participate in a structured activity that challenges their imagination and analytical abilities.

Over the span of one and a half hours, participants are introduced to the concept of innovation through a short orientation session, followed by an interactive challenge that requires them to combine creativity with practical thinking. The activity encourages students to look at everyday problems from a new perspective, develop simple yet impactful solutions, and present their ideas with clarity and confidence.

The event provides a platform for students to collaborate, communicate, and learn from one another while experiencing a real-time innovation process. It also helps them understand the importance of design thinking, teamwork, quick decision-making, and effective presentation skills. Faculty judges evaluate the ideas based on creativity, relevance, feasibility, and overall impact, which further motivates the students to think deeply and refine their problem-solving approach.

Overall, Innovation Day serves as a meaningful learning experience that not only promotes innovative thinking but also builds confidence, teamwork, and a mind-set of continuous improvement among students. It aims to spark curiosity, encourage bold thinking, and empower young minds to imagine solutions that can contribute positively to society.

Outcome of the Event:

- Students developed creative thinking by exploring innovative solutions within a limited time.
- Participants improved teamwork and collaboration through group-based problem-solving tasks.
- The event enhanced students' communication and presentation skills during idea sharing.
- Overall enthusiasm for innovation increased, motivating students to think boldly and pursue new ideas in future projects.

Feedback of the Participants:

Participants shared that Innovation Day was an engaging and eye-opening experience that pushed them to think beyond conventional ideas. They appreciated the interactive challenge, which helped them apply creativity to real-world problems. Many felt that the event improved their teamwork, communication, and quick decision-making skills. Students also mentioned that the orientation session gave them a clear understanding of innovation and design thinking. They enjoyed collaborating with peers from different departments and learning new perspectives. The constructive feedback from faculty judges boosted their confidence and encouraged them to refine their ideas. Overall, students found the event inspiring, productive, and highly motivating for their personal and academic growth.
