Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

Event Schedule

09:50	Registration Time
10:00	Welcome
10:15	Awareness session on Imagine Innovate Invent by Ms. Shubha Mehta
01:00	Lunch
01:30	Awareness session on Imagine Innovate Invent by Ms. Urvi Kanabar
04:00	Programme Feedback - Conclusion
04:30	Closing Ceremony

Brief about Event

D. K. V. Arts & Science college, Jamnagar, in collaboration with SU Startup and Entrepreneurship Council, IIC Saurashtra University organized a workshop on “Imagine Innovate Invent” on 22nd to 27th December 2025 at 10:00am to 4:30pm at D. K. V. Arts & Science college, Jamnagar. The session was led by Ms. Subha Mehta, Department of Electronics, Saurashtra University and Ms. Urvi Kanabar SUSEC, Saurashtra University.

Imagine Innovate Invent: 5 Days Tech Workshop is an intensive, hands-on program designed to spark creativity and transform ideas into real-world solutions. The workshop brings together students, tech enthusiasts, and aspiring innovators to explore emerging technologies and develop practical skills in a collaborative environment. Over five engaging days, participants are guided through the journey from imagination to implementation.

The event focuses on key areas such as design thinking, coding fundamentals, hardware prototyping, artificial intelligence, and digital innovation. Through expert-led sessions, interactive activities, and team-based challenges, attendees gain both technical knowledge and problem-solving skills. Mentors provide continuous support, helping participants refine their ideas and turn them into working prototypes.

A major highlight of the workshop is the innovation challenge, where teams conceptualize, design, and present their projects to a panel of judges. This experience not only enhances technical confidence but also builds presentation and teamwork abilities. Participants learn how to think critically, adapt quickly, and apply technology creatively to address real-world problems.

By the end of the five days, attendees leave with enhanced skills, practical project experience, and a renewed passion for technology and innovation. *Imagine Innovate Invent* is more than just a workshop—it is a platform that empowers young minds to dream big, create boldly, and shape the future through technology.

Key Points

- Promotes creativity and innovative thinking among participants
- Encourages problem-solving using technology
- Provides hands-on learning and practical experience
- Includes brainstorming and idea development sessions
- Supports teamwork and collaboration
- Guidance from mentors or industry experts

- Focus on building prototypes or tech solutions
- Opportunity to present projects and showcase idea

Outcome

The Imagine Innovate Invent event helped participants develop creative thinking and innovation skills by encouraging them to generate and transform ideas into practical solutions. Through hands-on activities and technical sessions, participants improved their technical knowledge, problem-solving abilities, and teamwork skills. The event also provided exposure to new technologies and guided participants in building prototypes or innovative concepts. As a result, participants gained confidence in presenting their ideas, enhanced their collaboration skills, and developed a better understanding of how innovation can be applied to solve real-world problems.
