Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

Brief about Event

A webinar on “**Patent Prosecution in India**” was organized by **Chanakya National Law University, Patna** in collaboration with **SPRIHA–IPR Chair, Saurashtra University and Institution’s Innovation Council (IIC), Saurashtra University** on **11th January 2026** from **02:30 PM to 05:30 PM**. The webinar aimed to provide participants with a comprehensive understanding of the patent prosecution process in India and its importance in protecting inventions.

The session was delivered by **Mr. Parth Sejpal, IPR Chair Professor, SPRIHA IPR Chair, Saurashtra University**, who explained the key aspects of patent prosecution, including patent filing procedures, examination process, and responding to objections raised by the patent office. He highlighted the significance of drafting strong patent applications and maintaining proper documentation during the patent filing process.

During the webinar, Sir discussed the stages involved in patent prosecution such as filing of patent applications, publication, request for examination, examination reports, and grant of patents. He also elaborated on common challenges faced during prosecution and strategies to overcome them effectively.

The session also focused on the role of intellectual property protection in innovation, research, and technology development. Practical examples helped participants understand how innovators and researchers can secure legal protection for their inventions and strengthen their competitive advantage.

The webinar concluded with an interactive discussion session where participants raised queries related to patent filing procedures, patent examination, and legal aspects of patent protection. The programme successfully enhanced participants’ knowledge about patent prosecution and encouraged them to protect their innovative ideas through proper intellectual property mechanisms.

Key Points

During the session, below mentioned points were discussed:

- Patent Prosecution
- Patent Filing
- Patent Examination
- Patent Drafting
- Legal Protection
- Innovation Protection
- Patent Strategy
- IP Awareness

Outcome

The webinar enhanced participants’ understanding of the patent prosecution process in India and the importance of protecting inventions through patents. Participants gained valuable insights into patent filing procedures, examination stages, and strategies for responding to patent office objections. The session encouraged students, researchers, and

innovators to safeguard their inventions and integrate intellectual property protection into their research and innovation activities. It also strengthened awareness about the role of patents in promoting innovation, research commercialization, and technological advancement.
