

## REPORT

### SSIP Startup Meetup

**Event Date:** 06.10.2025

#### **About the event:**

On 6th October 2025, ASHINE organized a review and mentoring meeting for SSIP-incubated startups. The objective of the meeting was to take detailed feedback, review the progress of each startup, and understand the challenges faced during their implementation journey.

During the session, startup teams presented updates on their product development, milestones achieved, fund utilization, and future action plans. The ASHINE team and mentors actively interacted with the founders, provided constructive feedback, and suggested improvements in technical development, business strategy, and execution. The meeting also served as a mentoring platform where startups received guidance on overcoming operational challenges, scaling their ideas, and aligning their progress with SSIP objectives. Overall, the session was highly interactive and helped startups gain clarity, direction, and motivation for their next phase of growth.
