

REPORT

Outreach Program on Entrepreneurship for Women in Engineering

Event Date: 09.10.2025

About the event:

On 9th October 2025, ASHINE organized an Outreach Program on Entrepreneurship for female engineering students to promote entrepreneurial awareness. The session focused on available entrepreneurial opportunities, funding grants, and scholarships for women innovators. Students were guided on how to convert ideas into startups, apply for funding, and utilize incubation and mentorship support. The program aimed to empower female students to explore entrepreneurship as a career path.
