Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

Event Schedule

10:30	Registration Time
10:40	Introduction about the incubation centre
10:50	Taken Session by Parth Sejpal
11:15	Giving knowledge by Incubaties
11:40	Visit the Incubaties room
12:30	Closing Ceremony

Brief about Event

Schools of Rajkot with support of SU Startup and Entrepreneurship Council Organizes “Visit to Incubation Center” on 28th February, 2026 on 10:30 AM onwards. The visit to the Incubation Center by school students on the occasion of National Science Day was organized to nurture scientific curiosity and encourage innovation among young learners. National Science Day, observed annually on 28th February to commemorate the discovery of the Raman Effect by C. V. Raman, celebrates the importance of science in everyday life and national development. As part of the celebration, students were given an opportunity to explore how scientific ideas are transformed into practical solutions and startup ventures through incubation support.

During the visit, students were introduced to the functioning of the incubation center, including its role in mentoring innovators, providing technical guidance, offering workspace facilities, and supporting early-stage startups. Interactive sessions, live demonstrations of innovative projects, and interactions with entrepreneurs helped students understand the journey from idea generation to product development. The experience inspired them to think creatively, appreciate the value of research and technology, and consider entrepreneurship as a future career path. Overall, the visit successfully connected classroom science with real-world innovation, making National Science Day both educational and motivational for the students.

Key Points

Here are the **key points** of the Incubation Center visit by school students on National Science Day:

- Celebration of National Science Day (28th February)
- Commemoration of the discovery of the Raman Effect by C. V. Raman
- Educational visit of school students to the Incubation Center
- Introduction to innovation and startup ecosystem
- Overview of incubation center facilities and support systems
- Interaction with startup founders and mentors
- Demonstration of innovative projects and technologies
- Awareness about entrepreneurship as a career option

- Encouragement of scientific thinking and creativity
- Bridging classroom learning with real-world applications

Outcome

The visit to the Incubation Center by school students on National Science Day helped foster scientific curiosity, creativity, and an innovative mindset among young learners. Students gained firsthand exposure to how research and ideas are transformed into practical solutions and startup ventures through mentorship, technical support, and incubation facilities. Interaction with entrepreneurs and demonstrations of ongoing projects provided insights into product development, commercialization, and problem-solving in real-world contexts. Overall, the event inspired students to appreciate the value of science and technology, motivated them to think creatively, and encouraged them to explore innovation and entrepreneurship as future pathways.
