1. Introduction

To celebrate **National Education Day**, an expert talk was organized on “**Importance of Education in Nation Building & Emerging Trends in Higher Education**” on 11th November 2024 at P P Savani University.

National Education Day is observed annually to commemorate the birth anniversary of **Maulana Abul Kalam Azad**, India’s first Minister of Education, and to honor his contribution toward the development of the education system in India.

The event aimed to create awareness among students and faculty about the evolving landscape of education, its role in nation building, and the significance of lifelong learning. The expert speaker highlighted how education drives social transformation, economic growth, innovation, and global competitiveness.

The session also emphasized current trends such as NEP 2020, digital learning, interdisciplinary education, skill-based curriculum, innovation ecosystems, and entrepreneurship development, aligning with national initiatives like **SSIP, IIC, and Startup India**.

NATIONAL Education Day

Celebrating the gift of education
that opens doors and nurtures
dreams.

2. Event Overview

The expert talk provided participants with insights into the past, present, and future of the education sector. Key discussions covered:

- Evolution of the Indian education system
- Vision and reforms under **NEP 2020**
- Importance of multidisciplinary and skill-based learning
- Role of research, innovation, and technology in modern education
- Contribution of students and educators to nation building
- Need for entrepreneurship and innovation culture among youth

The session encouraged students to adopt a proactive learning mindset and understand the broad opportunities provided by modern education reforms.

3. Key Outcomes / Highlights

- Understanding the significance of National Education Day and contributions of Maulana Abul Kalam Azad
- Awareness of NEP 2020, its objectives, and its impact on higher education
- Insights into emerging trends such as digital classrooms, blended learning, and interdisciplinary curriculum
- Encouragement to develop critical thinking, creativity, and innovation skills
- Exposure to institutional and national support frameworks (SSIP, IIC, Startup India)
- Interactive discussion on how education shapes responsible, skilled, and innovative citizens
- Motivation for students to participate in research, innovation, and community development activities

4. Participant & Coordinator Details

- **Total Participants:** 80 Students
- **Faculty Coordinator:** Dr. Nikita Manjanwal
- **Event Supported By:** SSIP, EBC Club, IIC

5. Conclusion

The National Education Day celebration was a meaningful and inspiring event. The expert talk enriched participants' understanding of the crucial role education plays in personal growth and nation building.

Students gained valuable insights into current educational reforms, emerging learning trends, and opportunities for innovation and entrepreneurship. The session successfully motivated learners to embrace education as a powerful tool for societal transformation and contribute actively to India's development.
