

AI Impact Workshop

Event Name: AI Impact Workshop

Date: 09/03/2026

Venue/ Mode: Online

No of Participants: 2405 students

**Speakers Name : Dr. Chirag Thaker, Prof. Maitrik Shah, Dr. Hitesh Panchal,
Mr. Hiranmay Mahanta**

About Event:

The session covered important discussions and outcomes from the summit:

- Rapid growth and adoption of Artificial Intelligence (AI) across industries
- AI applications in healthcare, education, manufacturing, and governance
- Importance of ethical AI practices and responsible innovation
- Opportunities for students in AI-driven careers and research domains
- Government initiatives supporting AI ecosystem development in India

The virtual program proved to be highly informative and inspiring for both students and faculty. It successfully bridged the gap between national-level discussions and institutional awareness. The insights shared are expected to encourage active participation in AI-based research, innovation, and startup initiatives under SSIP.

Outcome of Event:

- Enhanced understanding of AI trends and future scope
- Awareness of government support for innovation and startups
- Motivation among students to develop innovative solutions
- Strengthening of academic-industry linkage perspectives
