

AI Image Creation competition and sensitization program of SSIP 2.0

An **AI Image Creation competition and sensitization program of SSIP 2.0** was organized on 25-02-2026 at Government Polytechnic, Dahod. In the AI Image Creation competition, students used modern technology creatively to create amazing visuals. The process of creating visuals from words clearly demonstrated imagination, technical understanding, and deep understanding of the subject. Smart cities of the future, messages to save the environment, and artistic visuals – all were brought to life through AI. This competition proved to be an important step towards developing awareness and creative vision towards new technologies among the students. Shri S. G. Rathwa, Lecturer-Computer Engineering, served as the coordinator of this competition and Shri K. R. Chaudhary, Lecturer-EC Engineering, Shri V. P. Virdiya, Lecturer-Computer Engineering, and Dr. U. K. Ganatra, Lecturer-English served as the judges.

At the end of session, Shri V. P. Virdiya, Lecturer-Computer Engineering informed students about SSIP 2.0 scheme.

He shared his views on:

- Various schemes and funding opportunities under SSIP
- Steps to convert an idea into a startup
- Guidance on proposal submission and evaluation process

Total 11 students attended the sensitisation program. The photographs of the said event are as follows:
