**Industrial Visit to S.N.J. Pharma, Rajkot**  
**Date:** 16th February 2026

An educational industrial visit to S.N.J. Pharma, Rajkot, was organized on 16th February 2026 under the initiative of SSIP and the Innovation Club. The visit was coordinated by Dr. Mitesh Gondaliya under the guidance of In-charge Principal Dr. B. J. Gangani. The main objective of the visit was to provide students with practical exposure to pharmaceutical manufacturing processes and to enhance their understanding of industrial applications of scientific concepts.

A total of 15 students participated in the visit, including 4 boys and 11 girls. The students were warmly welcomed by the officials of the company, who provided an introductory briefing about the organization, its history, and its role in the pharmaceutical sector.

During the visit, students were taken through various departments of the industry, where they observed several practical processes involved in pharmaceutical production. The experts at S.N.J. Pharma demonstrated different stages such as raw material handling, formulation, quality control, packaging, and storage. Special emphasis was given to maintaining hygiene, safety standards, and quality assurance protocols followed in the pharmaceutical industry.

The students gained valuable insights into the working environment of a pharmaceutical company and understood the importance of precision, cleanliness, and regulatory compliance in drug manufacturing. The interactive sessions allowed students to ask questions and clarify their doubts, making the learning experience more engaging and informative.

Overall, the visit proved to be highly beneficial for the students as it bridged the gap between theoretical knowledge and practical application. It also motivated them to explore career opportunities in the pharmaceutical and research sectors. The college expresses sincere gratitude to the management and staff of S.N.J. Pharma for their support and cooperation in making this visit successful.
