

## Report on Intra Idea Competition / Presentation

The SSIP and Innovation Club of Government Arts and Science College, Dediapada jointly organized an Intra Idea Competition / Presentation to encourage students to develop innovative thinking, creativity, and practical problem-solving skills. The event provided a platform for students to present their innovative ideas addressing real-life challenges related to agriculture and the environment.

### Event Details:

- Name of the Event : Intra Idea Competition / Presentation
- Organized by : SSIP and Innovation Club
- College : Government Arts and Science College, Dediapada
- Date: 19/09/2025
- Guidance: Principal Dr. Anilaben K. Patel
- Venue: Government Arts and Science College, Dediapada
- Participants: 19 Students
- Presenters : 2 Students

### Objectives of the Event:

- To encourage creative and innovative thinking among students
- To develop practical solutions for real-life problems
- To enhance problem-solving and analytical skill.
- To improve presentation skills and self-confidence

### Description of the Event:

The event commenced with a brief introduction by the Innovation Club coordinator, highlighting the importance of innovation in education and society. A total of 19 students participated in the competition, out of which two students presented their innovative ideas in detail. Each presenter explained the problem, proposed solution, feasibility, and social impact of their idea.

### Details of Presented Innovative Ideas:

#### Idea 1: Agricultural Tool Renting Application

One student proposed the development of a mobile application that would enable farmers to rent agricultural tools at affordable rates. This idea aims to reduce financial burden on small and marginal farmers, increase access to modern tools, and improve agricultural productivity.

#### Idea 2: Environmental Pollution Reduction

Another student presented an innovative idea focused on reducing environmental pollution and Produce Oxygen by Machine. He was thinking of doing that, but at the moment he is not sure how to do it.

**Outcome / Learning of the Event:**

- Students gained exposure to practical problem-solving and innovation
- Creativity, critical thinking, and confidence were enhanced
- Awareness regarding environmental and agricultural issues increased
- Presentation and communication skills were improved
- Interest in innovation and entrepreneurship was developed
