

SEMINAR

Event Name: BASICS PROGRAMMING OF MICROCONTROLLER IN C LANGUAGE

Date: 27/01/2026

Venue/ Mode: A BLOCK, Room No 101, L.E.COLLEGE (DIPLOMA), MORBI

No of Participants: 27

Speakers Name: DR AMIT VED – Head and Associate Professor at Dept. Of Electrical Engineering, Marwadi University

About Event:

SSIP cell of L.E.COLLEGE (Diploma), Morbi has organised Seminar on Basic programming of microcontroller in c language by Dr. Amit Ved HOD Electrical dept. Marwadi University at A101 on 27/01/2026 at 11.00am onwards. Total 27 students of electrical and ICT branch has participated in this seminar. Students gain knowledge in microcontroller basics as well as application of it. The key part of the seminar was programming using c language as they get realtime practical using same. Vast knowledge of expert has benefited students in this domain.

Outcome of Event:

CO2 - Create programs in Embedded C for basic control Applications using 8051.

CO3 - Implement timer, counter, and interrupt-based logic using C.
