

L. M. College of Pharmacy, Ahmedabad

“Viksit Bharat from the Western Mirror”

A Seminar of a series ‘Science of science in the spotlight’

18th December 2025

1. **Name of the event:** ‘Science of science in the spotlight
2. **Dates of the event:** 18th December 2025 (3:30-4:30pm)
3. **Number of participants:** A total of 85 participants were present in the seminar. Along with them, many faculties of L.M. College of Pharmacy were present too.
4. **Name of collaborating agency/ Agency providing financial assistance for the conduct of the event:** NA
5. **Details of the Speakers/ Resource Persons along with their affiliations and the title of their talks:** Mr. Darpan Patel Expert in Financial Risk Management & Real Estate based at Canada
6. **A brief description of the outcomes achieved through the event or the message from the event:** As a part of our educational initiatives on ‘Quality and Ethics in Research’, we are organizing a Seminar Series on ‘Science of Science in the Spotlight’ every month at our Institute. Our honourable Principal, Dr. Mahesh Chhabria, gave the welcome address. The speaker, **Mr. Darpan Patel**, originally from Bhavnagar, Gujarat, is currently based in the Greater Toronto Area, Canada. He holds a Bachelor of Technology degree from Anand and has earned postgraduate accreditations in Credit Management and Enterprise Risk Management from the University of Toronto. He brings extensive professional experience across the telecom, finance, risk management, information technology, and real estate sectors, and has successfully led a real estate land development venture in Canada. Actively engaged with India’s economic initiatives, he has participated in Canadian business delegations to Vibrant Gujarat, reflecting his continued connection to India’s growth and development.

The lecture on **“Viksit Bharat from a Western Mirror”** provided a comprehensive perspective on India’s path toward becoming a developed nation, emphasizing that

development is not limited to economic indicators alone but also involves confidence, collaboration, innovation, and global responsibility. During the session, the speaker shared insights drawn from his professional experience in the Western world, offering students an understanding of how India is viewed internationally and how its policies, workforce, and entrepreneurial spirit are perceived abroad.

The lecture highlighted India's growing influence in global markets and the role of the **Indian diaspora** in strengthening international relationships through knowledge exchange, investment, and innovation. Real-world examples and case references helped students understand how Indians abroad contribute to India's development while adapting global best practices. This discussion encouraged students to think beyond national boundaries and recognize the importance of global exposure in their professional careers.

For the students of **LM College of Pharmacy**, the lecture served as an eye-opening experience by linking global perspectives with local aspirations. It helped them understand how fields such as healthcare, pharmaceuticals, research, risk management, and entrepreneurship are interconnected in a global ecosystem. The session motivated students to view their academic training not only as a pathway to employment but also as a means to contribute meaningfully to India's growth in areas such as innovation, ethical practice, and international collaboration.

Overall, the lecture fostered a sense of pride in India's progress while inspiring students to actively participate in the nation's development journey. It encouraged them to build global competencies, remain rooted in Indian values, and envision themselves as responsible professionals contributing to **Viksit Bharat** in an increasingly interconnected world.
