Name of the Event	A Visit to the PDEU Innovation and Incubation Centre
Event Type (Co-curricular/ Extra Curricular)	Extra-Curricular Activity
Date, Time and Place of the Event	22 nd April, 2026 PDEU Innovation and Incubation Centre, Gandhinagar
Total Number of Participants	55
Sponsoring Authority	Institute of Advanced Research

Name of coordinators: Dr. Neha Rajpara and Ms. Riddhi Trivedi

Brief overview of the visit:

The Institution's Innovation Council (IIC) of the Institute of Advanced Research organized a visit to the PDEU Innovation and Incubation Centre on 22nd April 2026 to provide students with practical exposure to innovation, startups, and entrepreneurship.

The visit began with an introduction to the incubation center and its role in supporting innovative ideas and early-stage startups. The PIIC team explained how startups are guided through mentorship, funding support, incubation facilities, and business development programs at PDEU Innovation and Incubation Centre. Students also learned about government grants, Startup India initiatives, and the importance of Intellectual Property Rights (IPR).

A detailed discussion was also held on one of the incubated startups, Stembotix. The team explained the startup's journey, its innovative work in robotics and STEM education, and the challenges faced during its growth. Students found this session highly inspiring as it provided a real-life example of how an idea can be transformed into a successful startup through innovation, teamwork, and persistence.

Students were then taken on a guided tour of the incubation center, where they explored startup workspaces, laboratories, and innovation facilities. The visit gave them a better understanding of how incubation centers support startups from the idea stage to product development.

The program concluded with an interactive question-and-answer session where students discussed topics related to entrepreneurship, startup funding, and incubation support.

Overall, the visit was informative and motivating. It helped students to understand the startup ecosystem and encouraged them to think creatively and explore entrepreneurial opportunities in the future.

Schedule of the event: 11:00 am to 1:00pm, 22nd April, 2026

Report for social media:

Exploring innovation beyond the classroom

Students from IAR University had an inspiring visit to the PDPU Innovation and Incubation Center, where ideas meet opportunity and entrepreneurship comes to life. From interacting with emerging startups to understanding the journey from concept to creation, the experience was both insightful and motivating.

Such visits play a vital role in bridging the gap between academic learning and real-world innovation, encouraging our students to think creatively and pursue entrepreneurial paths.

ecosystem, innovation processes, and entrepreneurship development. Students gained a better understanding of incubation support, funding opportunities, and the importance of Intellectual Property Rights (IPR). The detailed discussion on Stembotix inspired students to explore innovative and technology-driven ideas. The interaction with experts and entrepreneurs also encouraged students to develop creative thinking, problem-solving abilities, and an entrepreneurial mindset for their future careers.
