

SSIP Activity Report

Entrepreneurship Development Training Program” for college students

Entrepreneurship Development Institute of India organised an “Entrepreneurship Development Training Program” for college students with the objective of fostering entrepreneurial mindset, innovation, and startup culture among youth. The programme provided participants with practical exposure to business idea generation, business model development, market analysis, financial planning, and startup ecosystem support mechanisms. Through expert sessions, interactive activities, mentoring, and case studies, students gained valuable insights into entrepreneurship opportunities, leadership skills, and venture creation, encouraging them to transform innovative ideas into sustainable business ventures.

Date: 15th Dec 2025 to 19th Dec 2025

Venue: Government Science College, Vadnagar
