# ABOUT PANDIT DEENDAYAL ENERGY UNIVERSITY

**Pandit Deendayal Energy University (PDEU)**, formerly known as Pandit Deendayal Petroleum University (PDPU), was established by the PDPU Act, 2007; Acts of the Gujarat Legislature and Ordinances promulgated and Regulations made by the Governor, in the State of Gujarat, India. The primary thrust areas for the university are to ensure Energy for All, creating a Larger Social Impact and Prepare the Youth for tomorrow. PDEU has **NAAC** accreditation with "**A++**" **Grade** CGPA of **3.52 out of 4.00** & Graded Autonomy by UGC.

The University addresses the need for trained and specialised human resources for the energy industry worldwide. It intends to expand students' and professionals' opportunities to develop an intellectual knowledge base with leadership skills to compete globally. This objective is being addressed through several specialised and well-planned undergraduate and postgraduate energy education programs and intensive research initiatives, in management, engineering and humanities.

# ABOUT PDEU INNOVATION & INCUBATION CENTRE

**PDEU Innovation and Incubation Centre (formerly known as PDEU IIC)** is an incubator at PDEU established in 2014. The Centre was formally established in 2017 u/s 8 of The Companies Act, 2013, with a vision to provide state-of-the-art support and service to innovators, technocrats and entrepreneurs who aim to create a social and economic pact in society through innovative solutions to existing problems. The centre acts complementary to the academic and research activities of the University.

PDEU IIC has also been approved to be a **“Technology Business Incubator”**, a recognition by the Department of Science and Technology, Government of India. It is recognized as a Nodal Institute by the Government of Gujarat. PDEU IIC has incubated **230+ start-ups** across **10+ domains** and generated **500+ employment** opportunities through start-ups. The IIC Office has a specially designated area of **20,000 sq. ft** for the start-ups to work on.

# ABOUT MIT WORLD PEACE UNIVERSITY (MIT-WPU)

MIT World Peace University (MIT-WPU), Pune, was established under the Government of Maharashtra Act No. XXXV of 2017 as part of the MIT Group of Institutions, with the objective of providing quality higher education across diverse disciplines including Engineering, Management, Law, Design, and Computer Applications. Located in Kothrud, Pune, the university focuses on academic excellence, experiential learning, and interdisciplinary research, supported by modern infrastructure, industry collaborations, and international partnerships. Recognized by the University Grants Commission (UGC) and ranked in the National Institutional Ranking Framework (NIRF), MIT-WPU aims to develop well-rounded professionals through a holistic and value-based education system.

# PURPOSE OF THE VISIT

The visit to the PDEU Innovation and Incubation Centre (PDEU IIC) was planned to help MIT-WPU students understand how incubation ecosystems operate and the support available to aspiring entrepreneurs. The aim was to see how PDEU IIC encourages innovation, helps startups grow, and supports young founders through mentorship, resources, and networking opportunities. Through this visit, students got a chance to experience firsthand how ideas can be developed and turned into successful ventures.

# ABOUT THE EVENT

---

The visit began with an introductory session by the PDEU IIC team, offering students a practical understanding of entrepreneurship, startup functioning, and available support systems. The session effectively linked classroom concepts like business models, funding, and operations to real-world applications, while also highlighting the importance of mentorship and structured guidance.

To make the experience interactive, startups Stembotix and INav Labs conducted a pitching activity where students presented products, with winners receiving prizes. A Q&A session followed, addressing startup challenges and support systems. The visit concluded with a tour of the IIC facilities, showcasing the collaborative environment for aspiring entrepreneurs.

# CONCLUSION

---

The visit to PDEU IIC turned out to be meaningful for the MIT-WPU students, as it gave them a chance to see how the startup ecosystem actually works in practice. From interacting with professionals to understanding the support systems available for upcoming startups, the entire experience felt very real and relatable. The pitching session and the tour of the facilities left a strong impression, making students feel more inspired and open towards exploring entrepreneurship themselves. Overall, the visit helped them see more clearly how places like PDEU IIC actually back new ideas and support people trying to build something of their own.
