Event Summary:

The event commenced with an introduction by Ms. Priya Bandhia, who briefed the participants about the concept and structure of *PUPTANK*, highlighting its focus on innovation, strategy, and adaptability.

Round 1: **Idea Generation** (Spin the Wheel)

The first round was conducted by Mr. Digvijay Singh Rajput and Ms. Nirva Mehta, where teams were assigned a combination of technology and industry through a spinning wheel.

Each team was also allocated an initial virtual currency of 10,000 Pup Coins through Pup Cards (Credit Cards), which introduced a strategic layer to the competition. Teams were required to build a startup idea based on their assigned combination, encouraging creativity, quick thinking, and collaboration.

Round 2: **Chaos Round** – Dares & Strategic Challenges

The second round was conducted by Mr. Dhaval Agrawal and Ms. Kavya Thakor, where teams faced unexpected challenges in the form of problem statements (chaos cards) related to their startup ideas. These challenges tested their ability to adapt and rethink their strategies under pressure.

To enhance engagement, teams were given opportunities to earn additional PUP Coins by completing fun and creative dares, ensuring that every team actively participated. Additionally, hidden tasks were assigned to selected team members by Ms. Hetavi Makwana and Ms. Kashish Jain, introducing an element of surprise and strategic complexity.

Teams could also strategically utilize their PUP Coins for actions such as re-spinning their idea combinations, making the round highly interactive and decision-driven.

Round 3: **Final Pitch & Investment Round**

The final round was conducted by Ms. Hetavi Makwana and Ms. Kashish Jain, where shortlisted teams presented their startup ideas to a panel of judges.

The judging panel included:

- Mrs. Upasana Bhilota
- Dr. Pragnesh Trivedi
