- **Title of the Activity:** Application of Current Good Manufacturing Practices in Pharmaceutical Industry
- **Category of Activity:** Academic event
- **Facilitators/Resource persons:** Ms. Ruhi Shah, Senior Research Scientist, Formulation Development department, Alembic Pharmaceuticals Limited, Vadodara
- **Mode of Conduct:** Offline
- **Objective of the Activity:** This Guest lecture about Application of cGMP in Pharmaceutical Industry provides an important educational experience for students since they get to see the insight and perspective of the guest who delivering the lecture. It also enables the students to interact with professionals from different industries and academic/research institutions.

Description of the Activity: Ms. Ruhi Shah discussed about the Fundamentals of Current Manufacturing Practice (cGMP) and its importance in product manufacturing process. Quality control and quality assurance plays a vital role to achieve the best desired quality and safety of any pharmaceutical product. Not only that but, also product consistency in manufacturing along with quality and safety is ensured by these principles of cGMP. Recently. In this era of transparency and integrity, cGMP would be right path to maintain the values and brand of product. Recent unfortunate incident happened in pharmaceutical industry showcase the non-adherence of cGMP guidelines.

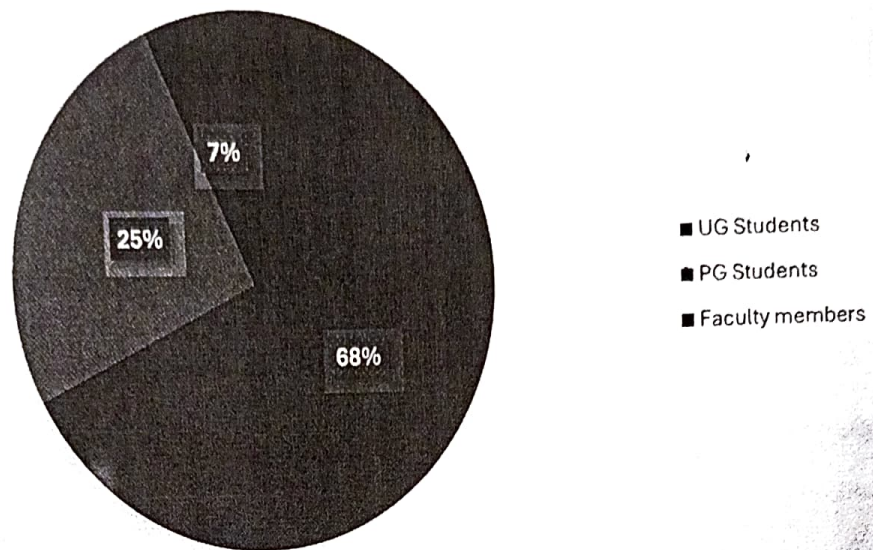

Additionally, she added in the talk that, pharmacy students have a bright future if they possess the right attitude and propensity to learn new things every day. She also advised the students that, don't just be limited to grab the opportunity but to be open with any opportunity. After very informative talk audience asked some question regarding the topic and general question about future of pharma industry where Ms. Ruhi Shah provided practical insights from her experiences and wisdom.
