

SSIP

SSIP 2.0 Sensitization Sessions

1. Event Name:	Interdisciplinary Innovation and Research Symposium
2. Date:	28 th April 2026
3. Venue/ Mode:	Idea Lab, A D Patel Institute of Technology, New VV Nagar
4. No of Participants:	42
5. Speakers/Coordinator Name	1. Dr. Dheeraj Kumar Singh, Computer Engineering Department 2. Dr. Ajay Tapre, Food Processing Technology Department
6. About Event:	The Interdisciplinary Innovation and Research Symposium – ADIT served as a dynamic scholarly platform that celebrated innovation, research excellence, and interdisciplinary collaboration among postgraduate students, PhD scholars, and faculty members. The symposium brought together researchers from diverse fields to share ideas, present their research findings, and explore emerging cross-disciplinary trends. The event showcased poster presentations by students, postgraduate scholars, doctoral researchers, and faculty members, creating a platform for meaningful academic interaction and constructive feedback. A total of 19 PG scholars and 4 Ph.D. scholars from diverse disciplines presented their work. Four judges from different fields evaluated the posters and selected three winners in each category. The winners were felicitated with achievement certificates in recognition of their accomplishments. Through keynote lectures delivered by Dr Vishal Singh, Principal ADIT and President of the function, the symposium facilitated knowledge dissemination on emerging research trends and encouraged collaboration across disciplines. Overall, the symposium strengthened ADIT's Innovation and Research ecosystem and inspired innovative research aligned with societal and technological needs.

7.Outcome of Event:

The Interdisciplinary Innovation and Research Symposium, jointly organized by the Departments of Computer Engineering and Food Processing Technology at ADIT in collaboration with SSIP and IIC, successfully fostered a vibrant platform for knowledge sharing and cross-disciplinary interaction. The event promoted collaborative thinking by bringing together participants from diverse academic backgrounds, encouraging the integration of technological advancements with food science innovations.

Participants gained valuable exposure to emerging research trends, innovative methodologies, and real-world problem-solving approaches through poster presentations and expert evaluation. The constructive feedback provided by the panel of judges helped scholars refine their research perspectives and improve the quality of their work.

The symposium also strengthened research culture among PG and Ph.D. scholars by motivating them to engage in interdisciplinary projects and innovation-driven studies. It facilitated networking opportunities among students, faculty members, and experts, paving the way for future collaborations and research initiatives.

Overall, the event contributed to enhancing academic excellence, promoting innovation, and reinforcing the importance of interdisciplinary approaches in addressing contemporary challenges.
