

Event Report

1. **Name of Event:** Venture Creation Bootcamp 2026
2. **Nature of the Event:** Bootcamp
3. **Date & Time:** 8th – 10th June 2026, 10:00 AM – 4:30 PM
4. **Venue:** Mentor Room, Anviksha, GSFC University, Vadodara
5. **Organized by:** GSFC University, GUIITAR Council, Wadhvani Foundation, SSIP, Startup Gujarat and IIC (MoE, Government of India)
6. **Number of Participants:** 54, Annexure – 1
7. **Speaker:** Mr. Kirankumar Parmar, Senior Manager, GUIITAR Council
8. **Major discussions in the event:**

The three-day Venture Creation Bootcamp 2026 was conducted from 8 to 10 June 2026 for students undergoing internships at GUIITAR Council. The bootcamp was designed to develop entrepreneurial competencies by providing hands-on exposure to the complete startup journey, from problem identification to business model development and investor pitching.

Day 1: Problem Identification and Customer Discovery:

The bootcamp commenced with programme orientation, followed by an introduction to Design Thinking. Participants identified real-world problems, explored entrepreneurial opportunities, and learned customer identification and need validation techniques to ensure market relevance.

Day 2: Solution Development and Market Assessment:

Participants transformed identified problems into innovative business ideas through structured ideation exercises. Sessions focused on opportunity assessment, market research, competitor analysis, and value proposition development to strengthen business viability.

Day 3: Business Model Development and Startup Pitching:

The final day covered prototype planning, Minimum Viable Product (MVP) development, Lean Canvas-based business model creation, financial planning, and revenue modelling. The bootcamp concluded with startup pitch presentations, where student teams showcased their business ideas and received feedback from mentors and faculty members.

Overall Summary:

The bootcamp provided participants with practical exposure to startup creation through interactive learning, group activities, and mentoring. Students developed entrepreneurial thinking, innovation capabilities, business planning skills, and confidence to transform ideas into viable ventures.

Learning Outcomes:

- Participants understood the end-to-end startup development lifecycle.
- Learned problem identification and customer need validation techniques.
- Developed skills in market research, competitor analysis, and opportunity assessment.
- Gained practical experience in Lean Canvas and business model development.
- Understood MVP planning and product validation.
- Learned the fundamentals of financial planning and revenue modelling.
- Enhanced teamwork, communication, presentation, and problem-solving skills.
- Strengthened entrepreneurial mindset, innovation, and leadership abilities.
