REPORT

On August, 2026, Student Sensitization programmer on “Problem Identification & Ideation” under SSIP 2.0 at Government Science College, Tharad, under the inspiration and guidance of the Principal, D.B.Goswami and SSIP 2.0-KCG.

Dr.Govind Varde, Head of the Department of Chemistry, delivered the welcome address.

The event continued with a special online lecture by Arati Patel, Program Associate, HE PMU SSIP 2.0-KCG, who provided in-depth information about SSIP and the grants available under various government projects. She provides and encourage the student how to identify the problem and the major point that should be considered during the identification of problem. She also provided information on POC, prototype, MVP and how to convert an idea into a Start-up. She Also give step by step information on different step that should be considered for working on idea. She Also give information on IPR filling and funding provided by Government for said purpose. Students got very important information from the lecture.

At the end of the program, Dr.Govind Varde, Head of the Department of Chemistry, delivered the vote of thanks and declared the event concluded. 90 students participated in seminar.
