He also added a very important statement at the end stating that entrepreneurship is a very

Mr. Karmjit started the session with a discussion on an entrepreneur to be competent. He said that driving with confidence, desire to persuade the dream, monitoring, and this process. He also stressed that every aspirant who is an entrepreneur must do his or her homework regarding the market as well as innovativeness of the product that he or she is developing. He stated that in this era of information technology, entrepreneurship is knowledge and technology-driven, due to the availability of fast information in the public domain. Thus, today saying like “Entrepreneurs are
