An Orientation and Sensitization Seminar under the **Student Startup and Innovation Policy (SSIP 2.0)**, an initiative of the Education Department, Government of Gujarat, was successfully organized at **Government Arts, Commerce, and Science College, Jam Khambhaliya** on **October 14, 2026**.

The main objective of this seminar was to raise awareness among students regarding innovation, creative problem-solving, intellectual property rights, and the various financial and mentorship support systems provided by the Government of Gujarat to turn innovative ideas into viable startups. A total of **80 students** actively participated in the program.

**Detailed Event Proceedings**

**1. Inaugural Session & Welcome Address**

The program commenced with a formal welcome by the SSIP Coordinator, **Dr. Kamlesh R. Gojiya**, who introduced the core philosophy of the Student Startup and Innovation Policy. He highlighted how SSIP 2.0 serves as an institutional bridge empowering young minds to transition from job seekers to job creators.

**2. Presidential Remarks**

In his presidential address, Principal **Dr. P. R. Chauhan** encouraged the students to utilize the facilities, guidance, and funding mechanisms available at the college level under SSIP. He emphasized the importance of nurturing an entrepreneurial mindset alongside traditional academic studies.

**3. Keynote & Guidance by Chief Guest**

The Chief Guest for the seminar, **Dr. Smita Chhag** (Principal, Government Science College, Jam Khambhaliya), delivered an insightful session on:

- Identifying everyday real-world problems and creating innovative, tech-driven or social solutions.
- The journey from a preliminary idea to a functional proof-of-concept (PoC) or prototype.
- Navigating government grants, incubation support, and patent assistance under the SSIP framework.
- Practical examples of successful student startups across Gujarat.

**4. Open House & Discussion**

An interactive Q&A session was conducted where students asked questions regarding idea submission, funding eligibility, and proof-of-concept approval processes. **Dr. Kamlesh R. Gojiya** addressed student queries and outlined the upcoming schedule for idea submissions at the institutional SSIP Cell.

**Event Outcome**

- **Awareness:** 80 students gained clarity on SSIP 2.0 guidelines, funding avenues, and institutional support.
- **Ideation:** Several students expressed interest in submitting early-stage innovative projects for institutional screening and PoC support.
- **Culture of Innovation:** The seminar reinforced a proactive environment for entrepreneurship and research within the campus.

**Conclusion & Vote of Thanks**

The event concluded with a formal vote of thanks delivered by the SSIP Cell, expressing gratitude to Principal Dr. P. R. Chauhan for his guidance, Chief Guest Dr. Smita Chhag for her informative address, and the faculty members and student volunteers who contributed to making the seminar a success.
