Objective of the Event:

- To create awareness among nursing students regarding the Student Start-up & Innovation Policy (SSIP 2.0).
- To encourage innovation, entrepreneurship, and problem-solving skills among students.
- To provide information about government support, funding opportunities, and incubation facilities available under SSIP 2.0.
- To motivate students to develop innovative ideas that can contribute to healthcare and society.

Brief Summary of the Event:

The School of Nursing organized an Expert Talk on “Student Start-up & Innovation Policy - 2.0 (SSIP 2.0)” on 24th July, 2026 at C-103. The session was delivered by Dr. Ashok Thummar, who shared valuable insights regarding innovation, entrepreneurship, and the opportunities available under SSIP 2.0.

During the session, the expert explained the objectives and key features of SSIP 2.0, including financial assistance, mentorship, incubation support, and guidance for transforming innovative ideas into successful start-ups. Students were encouraged to identify real-life healthcare challenges and develop innovative solutions that could improve patient care and community health.

The speaker also highlighted the importance of creativity, research, and interdisciplinary collaboration in developing start-up ideas. Interactive discussions and question-answer sessions enabled students to clarify their doubts and gain practical knowledge about the innovation ecosystem.

The event was highly informative and inspiring. Students actively participated and expressed keen interest in exploring entrepreneurial opportunities in the healthcare sector.

Is any CO/PO attained under the event? (If Yes, give details):
