A REPORT ON EXPERT TALK

Organizing School	School of Agriculture
Event Title	Expert Talk on "Student Start-up & Innovation Policy – 2.0 (SSIP 2.0)"
Event Date	07th August 2026
Event Type	Expert Talk (Offline Mode)
Venue	G-003
Coordinator	Dr. Rushi P. Pandya
Expert	Dr. Ashok Thummar

1. Objectives of the Event

- To create awareness among agriculture students regarding the Student Start-up & Innovation Policy (SSIP 2.0).
- To encourage innovation, entrepreneurship, creativity and problem-solving skills among students.
- To provide information about government support, funding opportunities, mentorship and incubation facilities available under SSIP 2.0.
- To motivate students to develop innovative ideas addressing real-life challenges in agriculture and society.

2. Brief Summary of the Event

The School of Agriculture organized an Expert Talk on **"Student Start-up & Innovation Policy – 2.0 (SSIP 2.0)"** on **07th August 2026** at G-003. The session was delivered by **Dr. Ashok Thummar**, who shared valuable insights regarding innovation, entrepreneurship and opportunities available under SSIP 2.0.

During the session, the expert explained the objectives and key features of SSIP 2.0, including financial assistance, mentorship, incubation support and guidance for transforming innovative ideas into successful start-up ventures. Students were encouraged to identify real-life challenges in agriculture and develop innovative solutions that could contribute to improved agricultural practices, sustainability, rural development and society.

Dr. Subhash University

The speaker also highlighted the importance of creativity, research, technological applications and interdisciplinary collaboration in developing start-up ideas. Interactive discussions and a question-answer session enabled students to clarify their doubts and gain practical knowledge about the innovation ecosystem. The event was informative and inspiring and encouraged students to explore entrepreneurial opportunities in agriculture.

3. Participation

Category	Girls	Boys	Faculty	Total
Participants	19	40	04	63

4. Course Outcomes (CO) Attained

- Students gained knowledge about innovation, entrepreneurship and start-up development.
- Students understood the process of converting innovative ideas into practical projects and start-up ventures.

5. Program Outcomes (PO) Attained

- PO1: Enhancement of knowledge related to innovation and entrepreneurship.
- PO2: Development of critical thinking and problem-solving abilities.
- PO3: Promotion of leadership, creativity and professional growth.
- PO4: Encouragement of lifelong learning and application of innovative approaches in professional practice.

6. Conclusion

The Expert Talk on "Student Start-up & Innovation Policy – 2.0 (SSIP 2.0)" was a valuable initiative of the School of Agriculture. The session provided students with an understanding of innovation, entrepreneurship, start-up development, and the support available through SSIP 2.0. The interaction motivated students to think creatively, identify practical agricultural problems, and explore innovative solutions. Such activities can contribute to developing entrepreneurial skills and encouraging students to transform innovative ideas into meaningful projects and future start-ups.
