Details of Session

Name of event: A session on Accelerators / Incubation Opportunities

Name of the event coordinator: Prof. Jinal Y. Patel, M. K. Kunwarani

Date of event: 25-08-2026

Number of Participants: 42 students

SESSION ON ACCELERATORS AND INCUBATION OPPORTUNITIES

Venue: Environmental Department Seminar Hall, Government Engineering College, Valsad

Organized Under: SSIP, Institution's Innovation Council (IIC)

Expert of the Session: Ms. Khyati K. Modi

Introduction

A session on **"Accelerators and Incubation Opportunities"** was organized under the Institution's Innovation Council (IIC) to create awareness among students about startup development, entrepreneurship, innovation, and the support systems available for aspiring entrepreneurs.

Objectives of the Session

- To introduce students to startup accelerators and incubation centres.
- To create awareness about entrepreneurship and startup opportunities.
- To explain the role of incubation centers in developing innovative ideas into successful businesses.
- To motivate students to explore entrepreneurial opportunities and develop innovative solutions.

Proceedings of the Session

The session was conducted by expert Ms. Khyati K. Modi, who shared valuable insights into accelerators and incubation opportunities. She explained how startup accelerators and incubation centers support budding entrepreneurs through mentorship, guidance, networking, infrastructure, and other essential resources.

Students gained knowledge about the startup ecosystem, the importance of innovation, and the opportunities available to transform business ideas into successful ventures.

Outcome of the Session

The session helped students understand the importance of entrepreneurship, innovation, and startup incubation. It encouraged them to explore new ideas, develop entrepreneurial skills, and make effective use of available incubation facilities and accelerator programmes.

Conclusion

The session was informative and beneficial for students. It provided valuable guidance on startup accelerators and incubation opportunities and motivated students to take steps towards innovation and entrepreneurship.
