

1) A SESSION ON ENVIRONMENTAL EMERGENCY & OPPORTUNITIES IN CLEAN TECH

Event Date: 11.10.2022

About the event:

A Session on Environmental Emergency & Opportunities in Clean Tech has been organized by ASHINE. This session's topic was an environmental emergency and the need for climate action. And how students, as responsible engineers, can contribute to this. This session helped students understand the significance of the problem and how they can work together to solve it. Ms. Soha Kapadia, Techno-Commercial Manager of Solnce Energy Private Limited, led the session. There was a total of 46 students who registered for this session.
